What we do our services.

Pharma Express provides a specialized medical and healthcare transportation service to many of the industry's leading pharmaceutical companies and medical institutions.

International and national transport of pharmaceutical and healthcare products includes:

Medicines

Vaccines

Specialist one-off medicines

Bio Pharmaceuticals

Analytical (DNA) Samples

Hospital medicine transport

Sport test samples

Genetic Samples

Sensitive pharmaceutical products

High Value Goods

Cosmetics

Our express vehicles are equipped with state of the art **temperature monitoring and reporting solutions**

About our certifications

Pharma Express is an international pharmaceutical transportation company, following GDP requirements, ISO 9001 certified and member of TAPA.

■ **Good Distribution Practice** guidelines offer a system of rules, regulations, and best practices related to the transport and handling of medicines. The principles are described in European Union GDP manual.

■ **ISO 9001:2015** aims to enhance customer satisfaction through the effective application of the system, including processes for improvement of the system and the assurance of conformity to customer and applicable statutory and regulatory requirements.

■ **Transported Asset Protection Association** aims to ensure the integrity and resilience of global supply chains, enabling sustainable supply chain risk management and loss prevention through the adoption of proven industry security standards, the gathering and sharing of threat and loss intelligence, training, networking and collaboration with all stakeholders to ensure the secure movement and supply of goods for businesses and consumers.

Carrier Transcold Periodical Verification Certificate (EN13486)

This is to certify at the Date of Periodical Verification indicated on this document confirms that the external temperature recording equipment fitted to the refrigeration unit has been verified in accordance with EN13486. Refrigeration unit data has been detailed also for reference with all values recorded
 * Carrier Transcold recommends the customer retains this verification certificate until its expiry date *

Refrigeration Unit Data		External Recording Device Data						Verification Result				
Unit Thermostat	Return Air	Analysers	Variance	Performed at 28 °C	T1	GPS	Performed at 5°C		T1	GPS	Performed at 0°C	T1
Verification Temp 1 26°C	26°C	26°C	0 °C	Actual	25.9°C	26.2°C	Actual	5°C	5.1°C	Actual	0.1°C	0.3°C
Verification Temp 2 5°C	5°C	4.8°C	0.2°C	Analysers	26°C	26°C	Analysers	4.8°C	4.8°C	Analysers	0.4°C	0.4°C
Verification Temp 3 0°C	0°C	0.4°C	0.4°C	Variance	0.1°C	0.2°C	Variance	0.2°C	0.3°C	Variance	0.3°C	0.5°C

EN13486 Periodical Verification checks to any external recording equipment are excluded unless agreed contractually or in writing. In the event of any agreement then: Temperature analyser probes were fitted adjacent to the probe(s) that required periodic verification checks. Carrier Transcold (manufacturer) will carry out the verification operation at 26°C, 5°C, 0°C. The verification operation can be performed within ± 5°C of the temperature at which the equipment is most frequently used if requested by the customer, but without exceeding the nominal measuring range of the equipment. At this point following the mandatory period of stabilisation readings were found to be as tabulated.

01. Staff GDP training

Title: GDP training

Owner: Fluturel Marian Nicolae

Issuer: Delta & Omega Management Systems

We train our office personnel and our drivers, so that we abide to all the rules and regulations of the European Union and those of Romania.

Our safety record continues to be a bright star in our portfolio as we focus on making safety a way of life throughout our company, cultivating a safer working environment for our customers and employees.

We always strive to provide safe, efficient and cost-effective services to our many customers.

■ The new employees are accepted after two weeks of training and after passing two tests from our responsible department.

■ Two times/year training with all stuff in team building.

■ Online training, One time/month for 2hour.

■ Training after each non-confirmity.

■ Training at client request.

02. Driver GDP training

Title: GDP training

Owner: Țugulea Adrian Marian

Issuer: Delta & Omega Management Systems

Why choose us ?

our **insurance**

INSURANCE POLICY

Our insurance covers all types of damage **including damages made by driver.**

1.5 million euro is maximum coverage.

When value of the goods is over 1.5million, **we can make special insurance for all days that goods are in our car.**

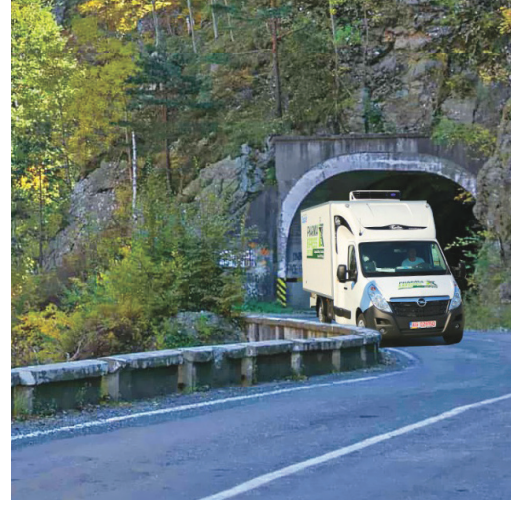

Photo gallery our fleet in images

Vehicles details

vans equipment

Pharma Express vans are equipped with the best technology on the market to safely transport medical equipment, medicines or organs for transplant.

Another aspect to mention is that they are energy efficient and have a very low external noise and the aspect that is the most important, all our vans are **eco-friendly**.

In our fleet we have two types of vans that will suit all your needs, and they have the following configurations:

■ Mono-temperature vans

8 pallets

Temperature from -20° C up to +30° C

Pallet spacers on van walls

4 security bars

Anti slip floor

■ Bi-temperature vans

7 pallets

Temperature from -20° C up to +30° C in both compartments

2 sensors, 2 frigorific aggregates

6 security bars

Anti slip floor

All our vans are secured with certified locks, and we always make sure they are parked in secure places (insured by TRAVIS).

Safety checks

monitoring system

Our employees monitor our fleet in realtime. That includes global positioning, temperature monitoring and other parameters such as cargo bay access.

We then provide reports which also include border crossings, what time the doors were opened and for how long, and the temperature sensor ratio.

■ The new employees are accepted after two weeks of training and after passing two tests from our responsible department.

■ Constant checking on the position of the vehicles

■ Dedicated person responsible to check all the vehicles once every 30 minutes.

■ Report with all route

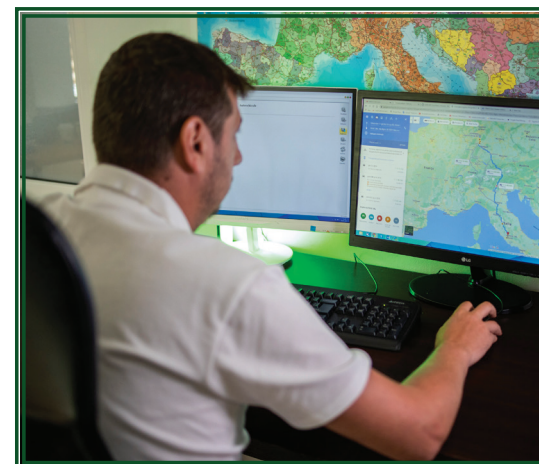

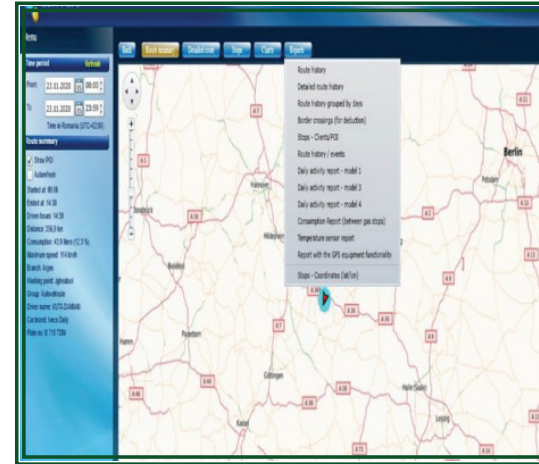

■ Border crossing times

■ Report for door sensors, clients can see at what time doors were opened and for how long

■ Report for temperature sensor, clients can always check what temperature its in the van, in realtime, and also at a specific time and date.

Our express vehicles are equipped with state of the art temperature monitoring and reporting solutions, incorporated within the vehicle position systems.

This includes an alarm system that notifies the driver if there are any deviations outside the set temperature parameters, this is also monitored remotely from our office or anywhere online via the internet, 24h assistance for frigo machine and car failures.

Trucks 13.6 m

our trucks

Depending on the unique needs of each business, in our field we cannot call ourselves an expedition company without trucks.

So we've focused our business on doing all we can to keep customers on the road so they can grow their businesses.

For this matter our trucks are also calibrated and equipped to suit all needs:

- **ATP:** Mapping, calibration certificate

- **Temperature range** -30°C to + 30°C

- **Driver** is GDP trained

- **Double deck**

- **Total max weight** 22 tons

Get to know our trucks and see how they are tailored **for your needs.**

TRANSCOM-PHARMA.COM

Environment is our **priority**

Human activities are the major cause of environmental degradation because most of the activities humans do harm the environment in some way.

The activities of humans that causes environmental degradation is pollution, defective environmental policies, chemicals, greenhouse gases, global warming, ozone depletion, etc.

So with all this in mind **PHARMA EXPRESS** tries it's best to reduce it's print on the environment by having vehicles that have a low impact in terms of CO2 and emissions, and one of our biggest goals is to renew our fleet with **electric vehicles** in the near future, but for now:

all our vans are **EURO 6**

all vans are equipped
with **SPILL KITS**

we organize **Team Building**
with employers on this
important aspect

Electric Vans are one of our
top priorities on our list for
future plans

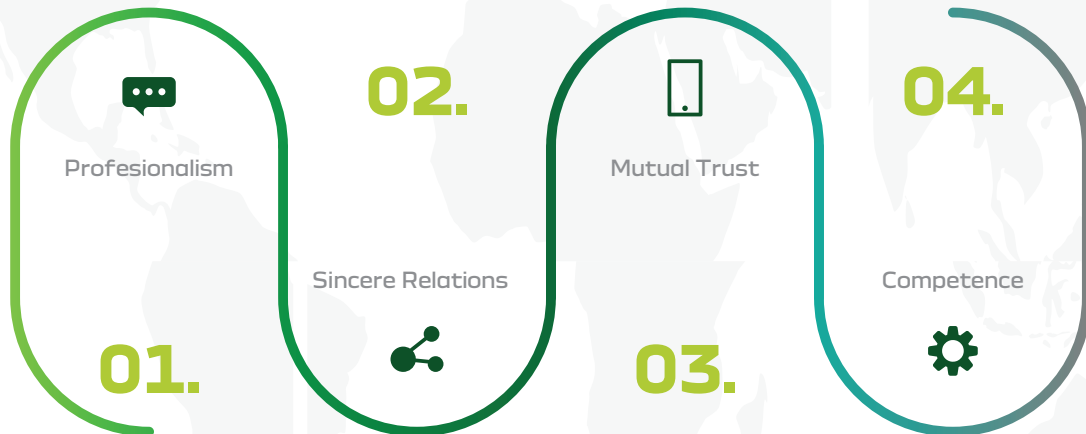

We follow our values

Company values are the central, underlying philosophies that guide a business and its employees.

These beliefs also influence the way a company interacts with partners, clients, and shareholders.

A company's culture must align with its core values in order to create a shared, enduring, and positive environment for all these parties.

So because we consider them as the founding block of our company **we created our list of values** to follow in our daily routine:
